## 1 Introduction

This document describes the resolved issues in v1.0.4 release of AASHTOWare Backcalculation Tool (BcT) on June 16<sup>th</sup>, 2020. Please note that questions regarding the software can be sent to [pavementmedesign@ara.com](mailto:pavementmedesign@ara.com), through our online bug reporting system <https://me-design.com/MEDesign/Report.aspx> or via the online discussion forum at <https://engineering.stackexchange.com/questions/tagged/pavement>. Remember to tag any questions you ask on the forum with the “pavement” keyword.

## 2 Issues Resolved

- F25 format is extracting force rather than pressure

## 3 Feature Requests

Feature requests can be made to [pavementmedesign@ara.com](mailto:pavementmedesign@ara.com) or to task force members. Requests can also be filed through the reporting system at <https://me-design.com/MEDesign/Report.aspx>

## 4 Upgrading

To upgrade to the newest version of the software, users will need to uninstall the current version and then reinstall the new version of the software on their machines. They will be required to input their updated or new license code after the program is installed and opened. The new version of the software can be downloaded at <http://www.me-design.com>.
